Aortopulmonary window is an uncommon congenital cardiac anomaly that may cause severe intractable cyanotic heart disease, usually requiring heart transplantation. Recent developments in transcatheter intervention for pulmonary stenosis, such as percutaneous balloon valvotomy and stent implantation, render aortopulmonary window less a contraindication for surgical repair. We report the case of a 19-month-old female who was referred to our institution with intractable cyanotic heart disease, coronary artery disease, and pulmonary stenosis. She underwent successful percutaneous balloon dilatation of the pulmonary valve, which provided significant relief of symptoms. After completing the course of balloon dilatation, she underwent surgical repair. Catheter angiography was useful in the evaluation of pulmonary arteries and the surgical anatomy. This report illustrates the value of preoperative catheter angiography in preoperative planning and surgical repair of aortopulmonary window.Amy Schumer and Chris Rock's Out-of-Control Funny Business Amy Schumer and Chris Rock's Out-of-Control Funny Business There's no denying it: The line between comedy and what everyone else calls comedy can be unclear. However, one of the most notable examples is Amy Schumer and Chris Rock. Despite a wildly successful track record together, this is not a pairing that many people expected to succeed. In the midst of the massive success of Trainwreck, the actress who embodies the typical-American-girl comedic foil gave a video interview in which she admitted that her films often begin as "rags." In the movie, Schumer's character, Laurie, is a woman who goes to a convention of losers who
