04.2016 [BEST] [HDTV] Extract the downloaded file to the desktop. Then right click on the file you just downloaded. Select "Send to" Then Choose "Folder". Then Select the folder you want to copy the file to. If you are in Windows the folder will be. If you are in Mac you will need to open the terminal and use the following code to do the same. cd Desktop #Note the capital "D" Next you need to move the file to the other folder you have created. cd Documents/ Once you have done this you need to open the folder where you have saved the file. You can do this by right clicking the file. Select "Open" Then wait for the other file to finish downloading. If you have any questions please email: and I will be happy to help you out. If you like this file feel free to leave a review and share it with your friends. [Notice] Download and install Bluestacks on your Windows or Android Device. [Warning] I know this file is a rip off, but it is the only method to download this file on Windows. If your not on Windows then feel free to request this file from another way. Thanks for viewing this video if you like you can subscribe and like. Enjoy.
