Nothing happens when I try to run it. When I start it from Steam, it starts and I'm given a blank screen. I'm running Windows 7 64 bit, fm 13.3.3, fm 14.3.3, fm 15.3.3, fm 15.6.3 and fm 16.0.4. I get a blue screen when I try to run any other steam games that aren't being played. FMRTE does not start. Possible causes:

- It is a combination of the following: 1. RAM is not sufficient.

- You are trying to run FMRTE on Windows XP. You can only run FMRTE on . A: This is probably because you have a different process.exe file than the one in the game folder. Try fm\_exefile.exe, then fm\_exefile.exe 13.3.3.62

6. You have to follow someone's page or make a tag to get it. 7. No gifs, animated images, photos, or other moving images will be used. 8. The maximum link count allowed is 5 links. 9. Posting has to be done using the link in the description. 10. Posts must be added to the page at least 24 hours prior to the event. Posts are not valid if they aren't added in time. 11. No spamming, bumping or making similar posts about others. 12. Posts are NOT allowed on other members' pages, but only to the pages of the event organizer. 13. If the event is cancelled, first day of posts counts as a post.
